“I love your concept”

“Super plan overall. We’re all in!”

“I would like to give my utmost support for this project, both the park and development portions.”

“Please work with neighboring homeowners in designing placement of trees, shrubs, etc. Some views we will want to block, others we will want to maintain.”

“Diversity is something that Prairie Village still lacks. I hope that this new park will continue to bring diversity to Prairie Village and I hope that it will be embraced.”

MXD Planned Mixed Use District

- Encourage a variety of land uses in closer proximity to one another than would be possible with more conventional zoning districts.

- Promote sustainable development that achieves a high level of environmental sensitivity & energy efficiency.

- Encourage building configurations that create a distinctive & memorable sense of place.
MXD Planned Mixed Use District
Developments are allowed & expected to have a mixture of:

- Residential
- Office
- Retail
- Public spaces
- Entertainment uses
- Other specialty facilities
MXD Planned Mixed Use District

- Incorporate coordinated consistent theme throughout.
- Utilize shared parking facilities.
- Linked by attractive & logical pedestrian network that places more emphasis on the quality of the pedestrian experience than is generally found in typical suburban development.
- Buildings intended to be primarily multistory structures.
