 - Implementation Recommendations
- 11 Financial Analysis
 - Proposed Recreation Facilities and Programs
 - Possible Funding Sources
 - Phasing Plan
- 12 Appendix
 - Mailed Citizen Survey Tabulations
 - Comments Received at Public Meetings

...We are charged with the duty of developing a plan that shall
not only meet present, but future wants...
to undertake important work in a half-hearted manner
is the poorest economy...
it is far better to plan comprehensively and broadly
and proceed with actual construction leisurely
than to attempt economy in the original plans.

George Kessler
Landscape Architect and City Planner
